Composite Score			Percentage Below		SCORE VALID UPTO FEBRUARY 2021		 248.709		
450.50			22.40						

### Management Aptitude Test and Test Scores

- The Management Aptitude Test (MAT) is designed to measure the competence of a candidate for pursuing management education and should be used only for this purpose.
- MAT is administered in five sections: Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Reasoning & Critical Reasoning, and Indian & Global Environment. Each section is designed to measure a different skill, which is important for management education.
  - MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult than another. Scoring has been used to take care of these differences.
- The scaled scores reported are standardized scores for respective sections. These scores are reported on a scale of 0 to 100. Extremes below 15 or above 95 are rare.
- The percentage below column indicates the percentage of candidates in the test who scored the percentage of the score below the score.
- The Composite score is an overall scaled score based on the first four sections of MAT. This is calculated as a weighted average of 40%.
- The percentage below for the composite score represents the percentage of candidates who scored below the scaled score. The composite score has a valid 10-year period of use.
- All scores and percentage below figures are rounded after rounding up to the nearest whole number.
- For extra details as required by the candidate.

NOTE TO INVIGILATOR: Part "B" of Admit Card (below the dotted line) must be detached and given to the candidate with your signature and test centre stamp.
